Spider Web™ Fly Glue Trap

One Spider Web trap can catch more than 100,000 flies! With over 6,000 square inches of surface area, this double-sided fly trap was designed to tackle the most severe fly infestations. Attractants include food grade multi-bait and fluorescent chartreuse color. University tests have shown that when the Spider Web Fly Glue Trap is used at a rate of one trap per 600 square feet, high infestation areas were able to achieve 70–80% control without any use of pesticides.

9144B4	Fly Ribbon Bulk Pack - pack of 96, 4 per case

Insect Light Trap "Not a Zapper!"

The power of direct UV light exposure attracts flies. Once the flies hover around the unit, they instinctively seek the food bait as well as the warmth of the bulb. The flies are then trapped on the UV resistant glue trap that is located underneath the bulb. The Insect Light Trap is economical, easy to maintain and discreet. Covers over the catch area keep trapped flies out of view. Effective for 500-800 square feet of unobstructed view. Unit size: 14" x 6" x 3½". One UV-resistant glue trap included.

Item No.	Description
910	Insect Light Trap - 6 per case
910D	Replacement Bulb
928	Replacement Glue Trap - 25 per box

Roach Killing Powder with boric acid

Our Roach Killing Powder is packed in an easy-to-use 1 lb applicator bag with resealable spout. Kills cockroaches, ants, waterbugs, palmetto bugs and silverfish. This product is for both residential and commercial use.
