NEOGEN® offers a broad range of cleaners and animal disinfectant products that are formulated to provide the highest quality chemistries and broadest efficacy for use in all types of animal care premises ranging from production livestock rearing to companion animal veterinary clinics.

It is always recommended to clean all surfaces prior to disinfecting. We formulate our cleaners specifically to meet the demands of agricultural sanitation. NEOGEN's offerings include alkaline, neutral and acidic, as well as foaming and non-foaming cleaners.

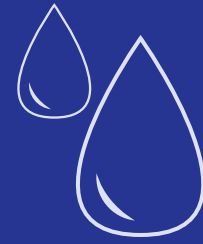

NEOGEN's EPA-approved veterinary disinfectants kill all major pathogens of concern, including bacteria, fungi, and viruses. Our disinfectants' germicidal capabilities also remove infectious agents such as avian influenza, foot and mouth disease, *Aspergillus fumigatus*, and PRRS. NEOGEN can assist you with step-by-step procedures to properly clean and disinfect all surfaces contaminated with organic matter, biofilms, and serum content.

Regardless of your operational disinfecting needs, surfaces, and bio-security protocols, NEOGEN has the products you can count on, including well-known and trusted brands such as BioSentry® 904 Disinfectant, Synergize®, BioSentry® BioPhene™ Disinfectant, and Dyne-O-Might®.

Water Treatment

Managing water quality and quantity is one of the most overlooked management practices in livestock production. It plays an important role in digestion and nutrient absorption and is essential for many physiochemical reactions needed for optimal growth and production.

A Peraside™

A peroxyacetic acid-based sanitizer/disinfectant developed for the following uses: Institutional/Industrial sanitizer and disinfectant for poultry and swine facilities, egg facilities, and animal housing. It is effective against bacteria, fungi, odor, and algae. Terminal descaler of water lines to removed tough mineral and metal build-up without clogging drinker nipples. Additional fogging applications including egg sanitation and room sanitation.

Active: Peracetic acid and stabilized hydrogen peroxide

Use: egg sanitation, water line descaling, fogging sanitation

Application: mechanical sprayer, proportioner, fogging, soaking

Item No.	Description	Case Ct.	Pallet Qty.
406047/2.5	Peraside 2.5 gal pail	1	75
406047/5	Peraside 5 gal pail	1	32
406047/30	Peraside 30 gal drum	1	4
406047/55	Peraside 55 gal drum	1	4

B Siloxycide®

Siloxycide is the only EPA-approved hydrogen peroxide and silver nitrate disinfectant for poultry and livestock drinking water lines. Approved for disinfection of hatcheries, poultry premises, watering equipment, feeding equipment, animal housing facilities and buildings, farm equipment, coops, trucks, crates, and troughs. Additionally, Siloxycide is approved for fogging applications.

Active: hydrogen peroxide and silver nitrate

Use: Poultry and swine water line disinfection, hatcheries, farm equipment, vehicles, etc.

Application: sprayer, fogging, and soaking

Water Treatment

C AquaPrime® Peraside™ 15

AquaPrime Peraside 15 is an OMRI-certified and EPA-approved peroxyacetic acid-based microbiocide developed for cleaning and disinfecting poultry and livestock drinking water lines. This product can also be used for equipment sanitizing, slime, and odor control in poultry and livestock drinking water lines, fruit and vegetable process water systems, animal housing facilities, and bacterial and algae control in wastewater treatment systems.

Actives: Peroxyacetic t, hydrogen peroxide

Use: Poultry and livestock drink water lines, animal housing premise, food contact surface and fruit and vegetable processing

Application: Medicator injection, pressure washer, soaking

D AquaPrime® NeoKlor

AquaPrime NeoKlor is a 7.5% Sodium Chlorite solution that is OMRI-certified and EPA-approved for usage in potable water disinfection. AquaPrime NeoKlor has numerous uses in potable water, can be utilized for food plant process, poultry processes water, CIP disinfection, industrial cooling water, and wastewater systems.

Active: Sodium Chlorite

Use: Disinfection of potable water found on poultry, swine, and cattle production sites, dairies, food plant processing, poultry process water, industrial cooling

Application: Closed generation system, acid-chlorite chlorine dioxide systems, or other potable water applications.

E AquaPrime Trigger

AquaPrime Trigger is an NSF-approved water-soluble acidifier for poultry and livestock drinking water. AquaPrime Trigger is a GRAS proprietary blend of mineral acids formulated to reduce pH in drinking water on poultry and livestock farming operations.

Active: Carbon-free acid blend

Use: Poultry and other livestock operations

Application: Metering or proportioner pump

Item No.	Description	Case Ct.	Pallet Qty.
480018/5	AquaPrime Trigger 5 gal pail	1	32
480018/15	AquaPrime Trigger 15 gal drum	1	9

Water Treatment

F AquaPrime Activator

AquaPrime Activator is an OMRI-certified, unique blend of mineral and organic acids specifically formulated to activate Chlorine Dioxide to disinfect livestock drinking water. An easy 1 part activator to 2 parts 5% sodium chloride solution mix will give an over 90% conversion to free ClO_2 . Efficient conversion creates the slightest cost application when calculating treatment cost per gallon of water or animal. The liquid is ready to use and includes a green color to indicate the injection lines' presence to ensure proper proportioning. Active: Acid Blend

Use: Poultry, Swine, and Dairy Operations

Application: Closed Chlorine Dioxide Generator System

G AquaPrime 3-Way Test Strips

AquaPrime® 3-way test strips show activated NeoKlor, total NeoKlor, and total Activator or Trigger in one step. This is a great way to simplify monitoring your water treatment program and maintain a quick, reliable systems check whenever needed.

Item No.	Description
BDS-50	AquaPrime 3-way test strips

What Does an Install Look Like and How Does it Work?

Cleaners & Disinfectants

Cleaners

NEOGEN cleaners are formulated specifically to meet the demands of agricultural sanitation and are an important step for an overall biosecurity plan. We recommend cleaning all surfaces before disinfecting. NEOGEN's offerings include alkaline and acidic cleaners as well as foaming and non-foaming cleaners.

A Farm-Foam™ EVO

Farm-Foam EVO is a phosphate-free, foaming, alkaline cleaner used to remove organic soils, especially fats and grease. Farm-Foam EVO is ideal for removing fecal material and soil in swine and poultry premises, hatcheries, and other animal confinement facilities. Farm-Foam EVO removes dirt, grime, protein, and oils, as well as minerals and adherent films.

Active: Sodium Hydroxide

Use: Alkaline Foaming Cleaner

Activity: General cleaner, deodorizer, and wetting agent

Application: Foaming equipment, pressure washing, or manual application

Item No.	Description	Case Ct.	Pallet Qty.
418088/1	Farm-Foam EVO 1 gal jug	4	192
418088/5	Farm-Foam EVO 5 gal pail	1	32
418088/55	Farm-Foam EVO 55 gal drum	1	4

A

418088/1 - 1 gal

B Acid-A-Foam™ EVO

A phosphate-free, acidic foaming cleaner, Acid-A-Foam EVO is used as an alternative to regular the hatchery, equipment, or barn cleaners to remove detergent residues, mineral scale, and other hard-to-remove elements. Complete disinfection requires a clean surface. Alternating between a good alkaline detergent and a good acid-based detergent maximizes surface cleanliness and, therefore, prepares the surface for the second step of disinfection. Acid-A-Foam EVO removes dirt, grime, protein, and oils as well as minerals and adherent films.

Active: Glycolic Acid

Use: Acidic foaming cleaner for hatchery or farm use

Activity: General cleaner, deodorizer, and effectively removes hard water scale and mineral deposits

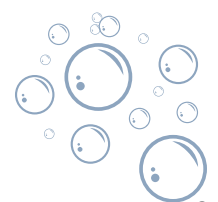

Application: Foamed, sprayed with pressure washing equipment, or manual application

Item No.	Description	Case Ct.	Pallet Qty.
418089/1	Acid-A-Foam EVO 1 gal jug	4	192
418089/5	Acid-A-Foam EVO 5 gal pail	1	32
418089/55	Acid-A-Foam EVO 55 gal drum	1	4

B

418086/1 - 1 gal

Cleaners

C Chlor-A-Foam™ EVO

Chlor-A-Foam EVO Hatchery and Equipment Cleaner is a phosphate-free, high foaming alkaline cleaner that rapidly removes protein, fat, and carbohydrate soils from surfaces, as well as stubborn yellow stains. Chlor-A-Foam EVO cleans hatchers, setters, equipment, egg rooms, chick boxes, walls, floors, and refuse areas in poultry hatcheries. Poultry and meat processing plants use Chlor-A-Foam EVO for cleaning equipment, shackles, walls, floors, and refuse areas. It is excellent for stainless steel, concrete, plastic, fiberglass, glass, tile, and other surfaces. Use this cleaner in foam-generating equipment as well as in pressure washers.

Active: Potassium hydroxide and sodium hypochlorite

Use: Hatcheries, processing facilities and equipment

Activity: All purpose, high-foaming detergent

Application: Foamed or sprayed with pressure washing equipment

Item No.	Description	Case Ct.	Pallet Qty.
418087/1	Chlor-A-Foam EVO 1 gal jug	4	192
418087/5	Chlor-A-Foam EVO 5 gal pail	1	32
418087/55	Chlor-A-Foam EVO 55 gal drum	1	4

418087/1 - 1 gal

D Acid Tray Wash EVO

Acid Tray Wash EVO is an acidified, phosphate-free, non-foaming cleaner for washing trays, plastic chick boxes, egg cases, and filler flats in automatic tray washers. It is also an excellent acidic rinse and equipment descaler.

Active: Glycolic Acid

Use: Acidic non-foaming cleaner for automated tray washers or general farm use

Activity: General cleaner, hard water scale, soap scum and mineral deposit remover

Application: Automated tray washers or pressure washing equipment

Item No.	Description	Case Ct.	Pallet Qty.
418086/1	Acid Tray Wash EVO 1 gal jug	4	192
418086/5	Acid Tray Wash EVO 5 gal pail	1	32
418086/55	Acid Tray Wash EVO 55 gal drum	1	4

418086/1 - 1 gal

E Chlorinated Tray Wash EVO

Chlorinated Tray Wash EVO is a chlorinated, low-foaming cleaning compound specifically designed for washing trays, plastic chick boxes, egg cases, and filler flats in automatic tray washers. It is also ideal for washing shell eggs intended for table use, break out, or hatching. Chlorinated Tray Wash EVO is low-foaming and ideal for use in chemical proportioners and manual feeding operations. It is an excellent clean-in-place (CIP) for egg-breaking operations.

Active: Sodium Hypochlorite

Use: Alkaline, chlorinated, non-foaming cleaner for automated tray washers or general farm use

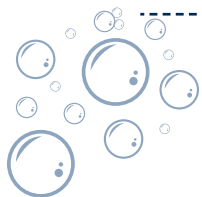

Activity: General cleaner

Application: Automated tray washers or pressure washing equipment

Item No.	Description	Case Ct.	Pallet Qty.
418091/1	Chlorinated Tray Wash EVO 1 gal jug	4	192
418091/5	Chlorinated Tray Wash EVO 5 gal pail	1	32
418091/55	Chlorinated Tray Wash EVO 55 gal drum	1	4

418086/1 - 1 gal

Cleaners

F BioSentry BioCres™ 50

BioSentry BioCres 50 cleans broiler houses, brooders, layer houses, livestock barns, farrowing pens, foaling pens, stalls, calf hutches, pig parlors, kennels, poultry crates, animal transport vehicles, and farm equipment. NEOGEN recommends BioSentry BioCres 50 for use on surfaces such as concrete, wood, plastic, glazed tile, enameled and metal surfaces of livestock housing, handling equipment, and transportation equipment. Wets and penetrates pores, cracks, and crevices to maximize cleaning.

Active: Cresylic acid and sodium hydroxide

Use: Alkaline, foaming cleaner for farm premises

Activity: General hard surface cleaner

Application: Spraying or foaming – not recommended as a mist unless a respirator is used

Item No.	Description	Case Ct.	Pallet Qty.
D12204575	BioSentry BioCres 50 1 gal jug	4	192

F

D12204575 - 1 gal

G Barnstorm™

Barnstorm is a heavy-duty, concentrated cleaner and descaler. It has a unique blend of specially formulated acids and a high-foaming detergent designed to remove both organic and inorganic soils from surfaces before disinfection. The mixture of organic acids and detergents allow Barnstorm to penetrate through the “biofilm” left behind on walls, floors and crates.

Active: Acidic foaming formulation

Use: Poultry facilities, hatcheries, swine quarters, waters & feeders, vehicles, and foot baths.

Activity: General use detergents, high foaming descaler

Application: Foaming, immersion, spraying, and moping

Item No.	Description	Case Ct.	Pallet Qty.
418083/1	Barnstorm 1 gal jug	4	192
418083/5A	Barnstorm 5 gal pail	1	32

G

418083/1 - 1 gal

H Quik Clean & Quik Clean + Pine

A highly-balanced biodegradable, all-purpose cleaner and degreaser, specially designed for use in poultry houses, swine premises, and on-farm premises, including poultry and turkey farms, breeders, laying operations, and hatcheries. A high foaming, neutral pH, general-purpose cleaner.

Active: Detergent

Use: Poultry facilities, hatcheries, swine facilities

Activity: All purpose, high foaming detergent

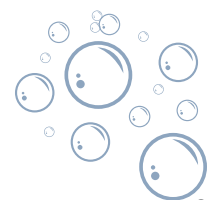

Application: Foaming, immersion, spraying, and moping

Item No.	Description	Case Ct.	Pallet Qty.
417080/1	Quik Clean + 1 gal jug	4	192
417081/5	Quik Clean + Pine 5 gal pail	1	32

H

Disinfectants

NEOGEN offers a broad range of disinfectants formulated to provide the highest quality chemistries and the most expansive efficacy for use in all types of animal care premises ranging from production livestock rearing to companion animal veterinary clinics. NEOGEN's EPA-approved disinfectants kill all major pathogens of concern, including bacteria, fungi, and viruses. They have broad germicidal capabilities to remove infectious agents such as avian influenza, aspergillus fumigatus, and PRRS. NEOGEN can assist you with step-by-step procedures to properly clean and then disinfect all types of surfaces contaminated with organic matter, biofilms, and serum content.

A Synergize®

Synergize is a multi-purpose disinfectant-cleaner formulated for animal and poultry housing facilities, turkey, breeder, grower, grow out, broiler, layer, hatcheries, and swine producing facilities as well. Synergize is also formulated for use on the following equipment in these facilities: waters, feeders, hauling vehicles and equipment, farrowing barns, nurseries, blocks, creep areas, and chutes. Synergize is also for use in farm premises, equine facilities, calf pens, and farm vehicles.

Active: Quaternary ammonium/glutaraldehyde

Activity: Kills both gram negative and gram positive bacteria, viruses, and fungi

Application: Mechanical sprayer, fogging, soaking, use in boot baths and vehicles

B NEOGEN Viroxide Super™

NEOGEN Viroxide Super™, a powdered, peroxygen-based disinfectant, offers rapid broad-spectrum disinfection as part of a comprehensive biosecurity program. NEOGEN Viroxide Super can be used for disinfection of production animal housing and equipment, boot baths, vehicles, and other hard, non-porous surfaces.

NEOGEN Viroxide Super has demonstrated effectiveness against viruses similar to SARS-CoV-2 on hard, non-porous surfaces. Therefore, NEOGEN Viroxide Super can be used against SARS-CoV-2 when used in accordance with the directions for use against Feline Calicivirus on hard, non-porous surfaces. Refer to the CDC website at <http://www.cdc.gov/outbreaks> for additional information.

Disinfectants

C BioSentry 904 Disinfectant

BioSentry 904 Disinfectant is a broad spectrum disinfectant recommended for use on hard non-porous surfaces for poultry, swine, farm, and veterinary practice disinfection. It is proven effective against bacteria, fungi, and viruses that cause disease and economic losses. It disinfects in 5% organic soil loads, 200 ppm hard water, and 0.5 oz per gallon dilution on most organisms.

Active: Combination of four quaternary ammonium compounds

Use: Complete hatchery, veterinary and farm premise disinfectant

Activity: Broad spectrum kill of molds, bacteria, viruses and fungi (*Aspergillus fumigatus*)

Application: Spray on hard surfaces, footbaths and vehicle disinfection

Item No.	Description	Case Ct.	Pallet Qty.

D BioSentry BioPhene™ II Disinfectant

BioSentry BioPhene II is a high activity phenolic disinfectant for poultry and swine facilities, animal care facilities, and other livestock and veterinary uses. BioSentry BioPhene II is a disinfectant, cleaner, bactericidal, fungicidal, and virucidal effective in 5% blood serum and up to 400ppm water.

Active: Phenolic

Use: Alkaline disinfectant for poultry, swine, cattle and other livestock facilities

Activity: Effective against livestock-specific pathogens at a 1:256 dilution

Application: Spray on hard surfaces and use in boot baths

Item No.	Description	Case Ct.	Pallet Qty.

E BioSentry BioPhene™ Spray Disinfectant

BioSentry BioPhene Spray Disinfectant is an EPA-registered aerosol disinfectant that effectively controls the common viruses and bacteria that challenge the agriculture industry. In addition to controlling viruses, bacteria, and fungi, BioPhene Spray Disinfectant also eliminates odor and controls mold and mildew. Use BioPhene Spray Disinfectant in vehicles, on footwear, or anywhere quick disinfection may be needed, making it a great addition to your biosecurity portfolio.

Active: O-Phenylphenol and Ethanol

Use: Service vehicles, animal transport vehicles, footwear, animal care facilities, livestock facilities, office quarters, animal quarantine areas, animal laboratories, and animal life science laboratories

Activity: Virucidal, Tuberculocidal, Fungicidal, Staphylocidal, Pseudomonacidal

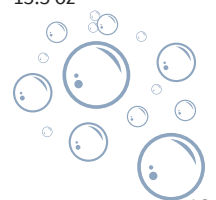

Application: Aerosolized Spray

F Pi Quat 20

20% dual chain quaternary ammonia disinfectant/sanitizer registered for use in processing plants, dairies, animal quarters, poultry and turkey farms, hatcheries, and kennels. Use Pi Quat 20 to sanitize previously cleaned food-grade eggs in shell egg and egg processing plants.

Active: Quaternary ammonium compound

Use: Poultry facilities, hatcheries, swine quarters, equine quarters, and veterinary clinics, kennels, dairy operations, and foot baths.

Activity: Bactericide, virucide, fungicide, deodorizer

Application: Foaming, immersion, low pressure sprayer, and fogging

Item No.	Description	Case Ct.	Pallet Qty.

H Iodis®

Iodis disinfectant is a detergent disinfectant and no-rinse sanitizer for food contact surfaces. A sudsing iodine cleaner, deodorizer, disinfectant, and sanitizer for farm premises, poultry houses, and food plants. Iodis provides 1.75% titratable iodine. Iodis disinfectant kills most food spoilage organisms, odor-causing bacteria, and bacteria that may cause disease or economic losses due to poultry, livestock, and food industries. Iodis aids in preventing and removing milkstone, beerstone, and mineral accumulations on treated surfaces in hard water areas.

Active: Iodine

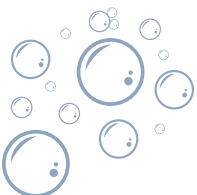

Use: Acidic, no rinse sanitizer for food processing plants, farm premise, hospitals and veterinary clinics disinfectant, drinking water sanitizer, and boot bath sanitizer.

Application: Flooding, immersion, mopping, or spraying

Item No.	Description	Case Ct.	Pallet Qty.
433300/1	Iodis 1 gal jug	4	192

Disinfectants

I Dyne-O-Might®

Dyne-O-Might is a cleaner-disinfectant and ammonia neutralizer made up of a unique patented blend of acids and iodine. The oxidizing and pH-reducing effect of the acids helps to permeate and break down cell walls. This provides a proven germicidal ability against pathogens such as E. Coli and Salmonella in the presence of 50% organic material. Use Dyne-O-Might for ammonia control in poultry facilities. Formulated with feed-grade ingredients, it is safe for use in all areas of the animal agriculture facility, including: nurseries, farrowing, breeding and gestation rooms, poultry litter, drinking water, and foot baths.

Active: Iodine

Use: Poultry farms, cattle barns, ratite facilities, swine facilities, dairy facilities, foot baths, zoos

Application: Mechanical coarse sprayer, boot baths

Disinfectants

L COMPANION™ Disinfectant

Specially formulated, COMPANION disinfectant is for use in veterinary practices, animal care facilities, and animal laboratories. At 1:256 dilution, COMPANION disinfectant is a neutral pH product and will be non-irritating to personnel, non-corrosive to equipment and will not peel pail or stain floor finishes. COMPANION is a multipurpose disinfectant designed to be effective against a broad spectrum of organisms that may present challenges in your facilities. At the ½ ounce per gallon dilution, COMPANION disinfectant provides a cost-effective solution in your clinic's biosecurity efforts.

Active: Quaternary ammonium/ glutaraldehyde

Use: Veterinary clinics, animal care facilities, animal quarantine areas, animal laboratories, animal life science laboratories, animal research centers, pet shops, kennels, animal breeding facilities, foot baths, and grooming establishments.

Activity: Kills both gram negative and gram positive bacteria, viruses, and fungi

Application: Mopping, spraying, soaking

Hand Hygiene Products

A COMPANION Hand Sanitizer

COMPANION Hand Sanitizer is an alcohol-based foaming hand sanitizer formulated to provide exceptional protection for today's veterinarian and food animal production locations. COMPANION Hand Sanitizer is a thick, rich foam that dries instantly and eliminates inconvenient spills through precisely metered pumps. It can also be easily transported in vehicles and kept in areas where water is not readily available.

Active: Ethyl Alcohol

Use: Veterinary clinics, animal care facilities, livestock facilities, office quarters, animal quarantine areas, animal laboratories, animal life science laboratories, animal research centers, pet shops, kennels, and service vehicles

Activity: Kills 99.9% of harmful bacteria on contact

Application: Apply 2 pumps into the palm of hand, rub briskly together until dry
