Ramik

rodent bait station

Instructions *Important:* Always read and follow bait label instructions before using these products.

To open the bait station, insert the two keys horizontally. Give each key a quarter-turn (90°) to unlock the station. Open the lid to load bait.

Following bait directions, load the vertical rods inside the station with Ramik® Mini-Bars, Havoc®-XT chunks or CyKill™ blocks bait.

Lock the station by closing the lid and giving keys another quarter-turn. Remove the keys and keep in a safe place out of reach of children.

Place the station with the entry openings along a wall where rodents travel.

Following bait directions, check and refill bait as needed to ensure a constant supply of fresh bait.

Made in China
