 **NEOGEN**

Net Contents:
30 fl oz. (900 mL)

— Dieline
- - - Copy Safe Area
— Bleed

PRECAUTIONARY STATEMENTS (Continued)

ENVIRONMENTAL HAZARDS

This pesticide is extremely toxic to fish. Do not apply directly to water, or areas where surface water is present, or to intertidal areas below the mean water mark. Do not contaminate water when disposing of equipment wash waters. Apply the product only as specified on this label.

PHYSICAL AND CHEMICAL HAZARDS

Do not use or store near heat or an open flame.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READY TO USE. No dilution necessary. Do not apply to lactating or dry dairy cows. Do not apply this product to the face of beef cattle and calves.

Apply to:	Target Insect	Dosage
Beef cattle	Horn flies, lice	Apply product along the backline at the rate of: More than 600 lbs. 15 mLs (½ fl. oz) Less than 600 lbs: 10 mLs (⅓ fl. oz)

For horn flies, repeat treatment as needed, however do not apply more than once every two weeks and do not apply more than four times within any 6-month period.

SPECIAL NOTE: StandGuard Pour On Insecticide is not recommended for veal calves. StandGuard Pour On Insecticide is not effective in controlling cattle grubs. Therefore, this product can be used on cattle at any time of the year without fear of host-parasite reactions commonly associated with grub treatments. StandGuard Pour On Insecticide should be used in an integrated pest management system which may involve repeat treatments and the use of other pest control practices. Continual exposure of

horn flies to a single class of insecticide (eg. pyrethroids or organophosphates) may lead to the development of resistance to that class of insecticide. In order to reduce the possibility of horn flies developing resistance, it is important to rotate, on a seasonal basis, the class of insecticide used and/or the method of horn fly control. For advice concerning current control practices with relation to specific local conditions, consult resources in resistance management programs, your Cooperative Agricultural Extension Agent or your Neogen Representative at 1-800-477-8201.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal
Notice: Shake well before use. Avoid Freezing.

Pesticide Storage: Store in original container, tightly close in a secure place. Keep out of the reach of children and domestic animals. In case of leak or spill, contain material and dispose as waste.

Container Disposal: Non refillable container. Do not reuse or refill this container. Offer for recycling if available. Clean container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or mix tank drain for 10 seconds after the flow begins to drip. Fill the container ¼ full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Wastes resulting from the use of this product must be disposed of on site or at an approved waste disposal facility. Triple rinse empty container. Then dispose of empty bag/container in a sanitary landfill, or, if allowed by state and local authorities, by burning, if burned, stay out of smoke.

LIMITED WARRANTY

To the extent permitted by applicable law, Neogen Corporation makes no warranty concerning uses which extend beyond the use of the product under normal conditions in accord with the statements made on this label. To the extent permitted by applicable law, Neogen Corporation shall not be liable for (1) any consequential, incidental, or special damages related in any way to this product or its uses, or (2) any damages related in any way to resistance to pesticides.
