

ACID TRAY WASH EVO

ACIDIFIED, LIQUID TRAY WASH

- For Use in Hatcheries to Clean Trays, Racks, Plastic Flats, and Boxes in Automatic Washers
- Ideal for Use through Chemical Proportioners

Net Contents: 1 gal. (3.79 L)

Acid Tray Wash EVO Components*			
Chemical Name	CAS No.	Function	List(s)
Water	7732-18-5	Diluent	Not Applicable
Ionic Salt	Withheld	Cleaning agent	Not Applicable
Hydrochloric Acid	7647-01-0	Cleaning Agent	Not Applicable
Glycolic Acid	79-14-1	Cleaning Agent	Not Applicable
Sulfamic Acid	5329-14-6	Cleaning Agent	Not Applicable
Amines, C12-14-tert-alkyl, Ethoxylated Propoxylate	68603-58-7	Defoamer	Not Applicable

* This table is being shared to comply with the California Cleaning Products Right to Know Act. Please refer to the SDS for further information on product hazards.

DIRECTIONS FOR USE

For Use in Automatic Washers: Use a 0.25% to 0.75% solution (¼ to 1 fl. oz. per gallon of water) (2 to 8 mL/L) in tepid to hot water (110° to 160°F or 42° to 70° C). Vary the amount depending on the soil load, water quality and water temperature. After cleaning with **Acid Tray Wash EVO**, follow-up with an appropriate disinfecting solution. This product is especially effective for use with chick-processing tray washers. Consult your Neogen Corporation Representative for recommendations.

For Descaling Tray Washers, Egg Washers, and Similar Equipment: Use a 0.75% to 4.0% solution (1 to 5 fl. oz. per gallon of water) (8 to 40 mL/L), and operate the equipment without adding any items to be washed. Cold water is satisfactory for descaling.

For Use as an Acidified Rinse: To prevent hard water and detergent spotting of items or lines previously cleaned with an alkaline detergent, add **Acid Tray Wash EVO** to the final rinse cycle water.

For Use in an Alternating Cleaners Program: One week out of every 4 to 8 weeks, pending water hardness, use **Acid Tray Wash EVO** in place of alkaline tray detergents to

keep machines and nozzles free of scale and detergent residues. It also removes mineral scale and detergent residues from washed items.

NOTE:

- Safe for use on plastic, glass, stainless steel, mild steel, and galvanized metals.
- Do not use on copper, brass, and other soft metals, or concrete.

SIGNAL WORD: DANGER

HAZARD STATEMENTS

Causes severe skin burns and eye damage.
May be harmful if swallowed.
May be harmful if inhaled.

PRECAUTIONARY STATEMENTS

Prevention:

Wash thoroughly after handling.
Wear protective gloves/protective clothing/eye protection/face protection.
Do not breathe dust/fumes/gas/mist/vapor/spray.

Response:

Immediately contact a poison control center or doctor/physician.
If on skin or hair: Take off immediately all contaminated clothing. Rinse skin with water/shower. Wash contaminated clothing before reuse.
If swallowed: Rinse mouth. Do NOT induce vomiting.
If inhaled: Remove person to fresh air and keep comfortable for breathing.
If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing eyes.

For specific treatment, refer to Section 4 of the product Safety Data Sheet (SDS).

STORAGE AND DISPOSAL

Storage: Store locked up.

Disposal: Dispose of contents/container in accordance with Federal, state, and local regulations.
