

KEEP OUT OF REACH OF CHILDREN

Indications: For use in cattle, sheep and goats as an aid in the control of foot rot. For use on horses, dogs and cats as an aid in the control of girth itch (ringworm) and other fungal skin problems. May provide soothing relief for summer itch (sweet itch).

Caution: In case of contact with eyes or mucous membranes, flush immediately with water. Obtain medical attention for eye inflammation.

Directions for Use: Soak affected area liberally with Topical Fungicide solution. Apply daily until hair begins to grow. Leave treated areas uncovered. Rinse treated areas with clear water before reapplying. If no improvement is noted within seven days, consult your veterinarian.

Note: Efficacy is reduced by dirt, debris, and soap/detergent residues.

NDC: 59051-195-16
