

AquaPrime® Trigger

Product Number: 480018

Key Features

- Copper-free and carbon-free formulation
- Can be utilized to activate sodium chlorite
- Effective pH reduction action
- GRAS approved
- Can be used with other AquaPrime products
- Can be used with other water-soluble products requiring acidic pH levels

Product Description

AquaPrime Trigger is a water-soluble acidifier for poultry and livestock drinking water. AquaPrime Trigger can also be used to activate AquaPrime NeoKlor to generate a chlorine dioxide water treatment product. AquaPrime Trigger is a GRAS proprietary blend of mineral acids formulated to reduce pH in drinking water on poultry and other animal production operations.

AquaPrime Trigger	Product Number
5 gal pail	488018/5
15 gal pail	488018/15
55 gal pail	488018/55
275 gal tote	488018/275

Active:	Carbon-free acid blend
Use:	Poultry and other livestock operations
Application:	Metering or proportioner pump

Physical Characteristics
Clear to light green liquid with a pungent, acrid odor. 100% soluble
pH: <1

Usage Rates

Task	Usage Dilution
pH reduction	Apply via metering pump to achieve desired final water pH. Create a stock solution at a rate needed to achieve final desired pH. Create fresh stock solution daily.
