Purpose

Prozap® Insectrin® 1% Pour-on Xtra is a ready-to-use as a pour-on, spray, or mist. Contains 1% permethrin and 1% PBO and is synergized to control lice, horn flies, face flies, horse flies, stable flies, house flies, mosquitoes, and black flies. For use on lactating and non-lactating dairy cattle, beef cattle, and calves. Mix with mineral oil for use with backrubbers. For use on sheep to control sheep keds and lice. Use as a spot spray or premise spray in and around animal premises, kennels, and outside meat processing areas.

Product Description

Dosage on Cattle and Calves: Apply 1/2 fl oz (15cc) per 100 lbs body weight of animal up to a maximum of 5 fl oz for any one animal.

As a Pour-On: Pour correct dose along back and down face.

Ready-to-use Spray: Use undiluted in a mist sprayer to apply correct dose. Apply directly to neck, face, back, legs, and ears.

For use in a Backrubber: Mix one pint per gallon of mineral oil. Keep rubbing device charged. Results improved by daily forced use.

General Use:	Apply to cattle, sheep, and premise.
Insects Controlled:	Flies, lice, mosquitoes, and sheep keds
Premise Uses:	Barns, sheds, and stables
Animal Uses:	Beef and dairy cattle and sheep
