

Prozap[®] Pelleted Bait

Product Numbers: 112845, 114600

Key Features

- Rapid and economical control of large infestations of mice or rats in and around livestock and poultry buildings; gophers can also be effectively controlled with direct burrow application
- Attractive protein concentrations
- Contains less dust than the competitor formulations
- Pellets utilize a special hardening agent and can withstand 1½” of rainfall before melting
- Easily filters through vegetation
- Prozap[®]'s small pellet size is preferred by mice

Product Description

For spot treatments in and around buildings, orchards and groves, vineyards, rangeland and non-crop areas such as lawns, ornamentals, golf courses, parks, and nurseries.

Prozap Mole and Gopher Bait

1 lb jar (112845)

- Kills moles and gophers right where they live—direct baiting to underground burrows, tunnels, and mounds
- Fast acting; works within hours
- Measuring scoop included for easy application

Prozap Rodent Pellets 12 lb Pail

12 lb pail (114600)

- Kills moles and gophers in and around buildings
- Fast acting; works within hours
- So effective that 1–3 pellets is fatal to small rodents

Zinc phosphide, a powerful acute rodenticide, is contained in all Prozap rodent bait formulations. The fast-acting baits are formulated with a special blend of processed grains that are especially appealing to rodents.

Please see entire product label and follow all use directions and use precautions. Use only for the sites, pests, and application methods described on the product label. It is a violation of Federal law to use this product or products in a manner inconsistent with its labeling.
