

Prozap® War Paint®

Product Number: 1859510

Prozap War Paint	Product Number
96 gram tube	1859510

Purpose

Prozap®'s War Paint is a uniquely formulated paste designed for full body fly control against face flies, horn flies, stable flies, house flies, black flies, and bot flies. War Paint is conveniently packaged in a 96 gram tube.

Product Description

War Paint is your solution for pastured horses and foals; it is rain-fast in 2 hours and will treat a 1,000 lb horse for 8 weeks. When applied, War Paint attaches to the hair to repel and kill flies. Only place small amounts of War Paint where flies tend to congregate to offer maximum protection against unwanted flies.

Once applied to the hair of the horse, War Paint cannot be wiped off. Therefore, it should not be applied within one to two weeks of any anticipated show or event in which the presence of small amounts of paste on the horse's hair would have an adverse effect on the horse's appearance.

Active Ingredients	7% Permethrin, 14% PBO, 21% MGK 264
