Safety Techno Boot with Steel Toe

Soft-Toe Techno Boot

Product Description

Techno polyurethane boots offer guaranteed comfort all day long, extreme durability, cost savings and superior safety. Developed for long and intensive use, these boots are resistant to oils, fats, manure, acid & chemicals. Elastopan polyurethane from BASF material make the boots lightweight and thermally insulating while providing flexibility and strength. Memory foam insoles conform to the shape of the foot creating a custom fit and offer all day wearer comfort. The abrasion resistant outsole makes Techno Boots 3-4 times more durable than PVC or rubber boots. These boots offer exceptional grip in extreme environments passing the SRA* and SRB* tests.

Key Features

- Memory foam: the insole takes the shape of your foot
- Anti-bacterial
- Anti-static
- Washable and fast drying
- Odor resistant
- Kick-off Spur - take your boots off with ease
- Up to 35 % lighter than PVC or rubber boots
- *SRA test (slip resistance on ceramic tile floor covered with sodium (NaLS) solution)
- *SRB test (slip resistance on steel floor covered with glycerine)
