

Propylene Glycol, USP

Product Number: 79231

Purpose

For use as an aid in prevention and treatment of ketosis (acetonemia) in dairy cattle.

Directions for use

Mix with feed or use as a drench. Consult veterinarian if condition does not improve.

Prevention:

Dairy Cattle: 6-8 fluid ounces/head/day

Begin 2 weeks before calving and continue for 6 weeks after calving.

Treatment:

Dairy Cattle: 6-16 fluid ounces/head/day

Dosage dependent upon severity, to be given for up to 10 days.

Caution

Overuse may disrupt rumen flora, decrease rumen motility and cause diarrhea.

Warnings

For veterinary use only. Not for human use. Keep out of reach of children.

Storage

Store at a temperature between 15°-30°C (59°-86°F). Keep container tightly closed when not in use.
