

# Prozap<sup>®</sup> Protectus Pour-On Insecticide—IGR

Product Number: 1896010, 1898010

## Presentation

Prozap Protectus Pour-On Insecticide—IGR	Product Number
0.5 gal. (1.892 L)	1898010
2.5 gal. (9.464 L)	1896010

## Key Features

- Ready-To-Use as a Pour-On
- Combination of an insect growth regulator, adulticide, and synergist
- Kills chewing and sucking lice, horn flies, stable flies, and horse and deer flies on beef cattle and calves
- Kills louse eggs before they hatch
- Season long control of lice

## Product Description

Prozap<sup>®</sup> Protectus Pour-On Insecticide—IGR is a triple active formula for use on beef cattle and calves that kills chewing and sucking lice, horn flies, stable flies, and horse and deer flies. A unique combination of actives includes an insect growth regulator (IGR), adulticide, and a synergist that provide cattle relief from infestations and producers a reliable solution that helps minimize handling, time, and labor costs. The addition of the insect growth regulator, diflubenzuron, kills louse eggs before they hatch, providing season long control of lice in one application.

Ready-To-Use as a Pour-On—No dilution is necessary. Available in a 0.5 gal. (1.892 L) backpack style bottle that treats 64 cattle (1,000 lbs. per animal) and 2.5 gal. (9.464 L) that treats 320 cattle (1,000 lbs. per animal).

The convenient 0.5 gal. backpack style bottle comes with a snap-on dip tube and removable storage compartment that contains strap and spigot cap for easy dispensing. The container can be used upright, with the dip tube, or inverted without the dip tube. This provides the user the convenience to use mobile or stationary. Prozap Pour-On Applicator Gun sold separately (Product No. 380708).

One (1) Prozap Pour-On Applicator Gun (Product No. 380708) is included per case of 2.5 gallon Prozap Protectus Pour-on Insecticide—IGR.

# Prozap Protectus Pour-On Insecticide—IGR

<b>Actives:</b>	Diflubenzuron, Piperonyl Butoxide, and Lambda-cyhalothrin
<b>Use:</b>	Beef cattle and calves
<b>Activity:</b>	Proven effectiveness against designated insects when used as directed
<b>Application:</b>	Pour-On/Graduated Applicator Gun

## General Instructions

Apply to beef cattle and calves at the rate of 0.1 fl. oz. (3 mL) per 100 lbs. of body weight, equivalent to 1 fl. oz. (30 mL) per 1,000 lb. animal. Apply correct dose along back using a graduated applicator gun. Keep away from eyes and mucous membranes of the animal being treated. Shake well before use.<sup>1</sup>

<sup>1</sup>It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read the entire label and follow all use directions, use restrictions, and precautions.

## Notes

Not recommended for use on veal calves.

This product is not effective in controlling cattle grubs, and can be used any time of the year without risk of host-parasite reactions associated with grub treatment products.
